About Darryl:

- Degree in Public Policy and Administration.
- Legislative Advisor with Alberta Municipal Affairs.
- Co-Chair of 2009 United Way Campaign raising over \$42,000.

LAGERQUIST, Darryl

My Priorities:

- Increase community involvement and engagement

I will host regular "town hall" meetings with community members and bring forward all of your concerns.

- More accountability and transparency

I will work to make the entire decision making process open to the public. A change in the governance model at Edmonton Public School Board is required to bring all stakeholders to the table for decision making.

- Student Trusteeship

I will strive to bring a Student Trusteeship program to Edmonton schools so students can experience our democratic system first hand and build leadership skills.

- Promote inclusive education

I will work to ensure all children have equal access to our public education system.

- Health and wellness awareness

I will work to bring healthy alternatives to our schools and promote healthier lifestyles by working to bring more extra-curricular activities through community collaboration.
